

01 OVERVIEW

TITLE	Principal/ Master Trainer
EDUCATION	Leadership GRID (2005) – GRID International
	Competent Toastmaster (2007) Toastmasters International
DESIGNATIONS	CR® (Certified Restorer) CMP® (Certified Mold Professional) AHERA® (Asbestos Hazard Emergency Response Act) Certified Building Inspector
YEARS	30+

02 COMMITTEE LEADERSHIP

- Indoor Air Quality Association (IAQA), Convention Planner Committee Member 2012- present
 - Development of educational workshops/sessions, vetting of speakers.
- IAQA, BC Chapter VP and Communications Director
 - Promotion of indoor air/environmental quality via workshops and educational forums for multi-disciplinary professionals. 2017-18
- Greater Langley Chamber of Commerce,
 - Director at large 1992-94
 - Developed the Ambassador Program and recruited a team of Ambassadors to promote Chamber networking through welcoming and connecting new members. 2013-2017
- BC Association of Restoration Contractors, Vice President, Secretary 2006- present
 - Founding Director of first health and safety association in the fire/flood industry in North America.
 - Developed training and achieved significant workplace injury reductions over approximately 10 years.
- Restoration Industry Association (RIA),
 - First Canadian director on international board. 2004-11
 - Served in several capacities including Treasurer.
 - Achievements include:
 - Revitalization of Environmental Council.
 - Organizer and speaker at several national conventions.
 - SWOT analysis and key member in strategic planning and restructuring.
 - Worked closely with the Education Director to rewrite course exams, develop continuing education system and launch renewal of the Certified Restorer designation.
- Crocodile Ventures (Venture Capital Corp),
 - Director working closely with executive management to promote and execute the business plan and liaise with investors.
- Carpet Cleaners Institute of the Northwest,
 - BC Chapter President 2001-2004

- Organized education and training events
- Developed membership into the most successful chapter within the organization and developed revenue streams that supported member value.

03 STANDARDS, GUIDELINES

- Participated as subject matter expert on various technical committees and developed and edited the respective standard (as listed below):
 - **CSA Standard Z317.13-17** Infection Control during Construction, Renovation or Maintenance of Health Care Facilities since 2016.
 - **ANSI Approved IESO/RIA Standard 6001-2011**, Evaluation of Heating, Ventilation and Air Conditioning (HVAC) Interior Surfaces to Determine the Presence of Fire-Related Particulate as a Result of a Fire in a Structure. (2009-11)
 - **ANSI/IICRC S520** Standard and Reference Guide for Professional Mold Remediation since 2012
 - **BSR/IICRC S700** Standard for Professional Fire and Smoke Damage Restoration since 2018

04 SUMMARY OF EXPERIENCE

04-1 Overview

- 30+ years in occupational health and safety, restoration contracting, infection control, hazardous materials abatement, and forensic restoration.
- Infection prevention and control ("IPAC") expert, consultant and trainer.
- Developed, designed, implemented and provided practical, creative, cost effective and timely IPAC solutions for various clients and several health care facility ("HCF")-related projects (new construction, renovations, etc.).
- Conference speaker at the Canadian Healthcare Engineering Society (CHES), RIA, IAQA regional and international conferences since 2008.
- Webinar trainer for CHES, RIA, IAQA.

04-2 Experience

- Participated in, and contributed technical knowledge, expertise and work/project experience to the CSA Infection Control Working Group Committee.
 - Responsibilities:
 - Contribution of technical knowledge and experience to Committee;
 - Amalgamating information, data, evidence, and technical information;
 - Verbiage, content, text development and copywriting; and
 - Standards revision, refinement and/or development.
- Contract instructor for the CSA Training Group; taught the following CSA Standard Z317.13 courses (contract completion: July 2018):
 - Edit, update and improve the training content (manual and power-point) for CSA
 - Infection Control: Part 1 – Fundamentals During Construction, Renovation and Maintenance of Health Care Facilities; and
 - Infection Control: Part 2 – Effective Implementation and Practical Applications During Construction, Renovation and Maintenance of Health Care Facilities.

- **Infection Control Training Group** (Founding Partner: January 2017 to present):
 - Development of various stakeholder training programs/presentations:
 - Design/Planning of Healthcare Construction/Renovation Projects;
 - Constructing/Renovating Healthcare Facilities;
 - Facilities Maintenance/Working in Healthcare Facilities; and
 - IPAC & Construction: What Infection Control Professionals Need to Know; and
 - Infection Control for Construction Trades.
 - Provision/delivery of various stakeholder training programs/presentations.
 - Provide training and education solutions to optimize operational performance in various healthcare environments and construction projects, with a particular focus on application, new product development, and national infrastructure project development.
 - Provision of key support to healthcare facility staff and support contractors in applying IPAC principles and prevention measures to maintain successful infection control during daily operations and projects of various sizes.
 - Development of trainers to deliver quality, effective and dynamic ICTG training courses across Canada.
- **Genesis Restorations Ltd.** (Founder/CEO: August 1990 to present):
 - Technical specialist in restoration industry (international recognition).
 - Full service property damage restoration.
 - Application of infection control practices in hospitals across Western Canada.
 - Design/implementation of various infection control strategies for various project sizes and complexities (\$500,000 – \$100 million), for various large scale general contractors.
 - Mould remediation expert in residential, commercial, and healthcare sectors.
 - Performed some of the largest remediation projects in hospitals in BC and AB.
 - Leaders in innovative structural drying strategies and water/sewer damage decontamination.
 - Obtained Langley Chamber of Commerce Medium Business of the Year, Business Excellent Award in 2014.
- **Enviroblast Eco Cleaning Technology** (Founder/Principal: 2009-2015):
 - Successful mobile coating removal/surface preparation firm that provided abrasive blasting solutions that supported clients' performance objectives.
 - Performed high risk lead abatement paint removal in National Parks during inclement climate conditions and strict oversight from BC safety regulator (WorkSafeBC).
 - Conducted yacht hull cleaning and re-coating, including fiberglass, steel, aluminum and paint/corrosion removal and re-coating.
 - Performed fire restoration services: interior and exterior soot and char removal for several restoration firms.
 - Developed mold and ink roller cleaning process using wet soda bicarbonate for the largest printing presses in Western Canada.

05 TRAINING SUMMARY

- Undertaken and successfully completed CSA Standard Z317.13 courses:
 - Infection Control: Part 1 – Fundamentals During Construction, Renovation and Maintenance of Health Care Facilities; and
 - Infection Control: Part 2 – Effective Implementation and Practical Applications During Construction, Renovation and Maintenance of Health Care Facilities.

- Developed an Infection Prevention and Control Awareness orientation training program (course presentation) customized and tailored to select client construction projects/sites.
- Delivered Infection Prevention and Control Awareness orientation training courses to several different client stakeholders (Superintendents, Construction/Project Managers, Foremen, Workers, Subcontractors etc.).
- Under the Infection Control Training Group:
 - Development and/or delivery of various stakeholder training programs/presentations:
 - Design/Planning of Healthcare Construction/Renovation Projects;
 - Constructing/Renovating Healthcare Facilities;
 - Facilities Maintenance/Working in Healthcare Facilities; and
 - IPAC & Construction: What Infection Control Professionals Need to Know; and
 - Infection Control for Construction Trades.

06 PROFESSIONAL MEMBERSHIPS

- Member of the following associations, committees:
 - CSA Standard Z317.13-17 Infection Control Section 8. (New Construction Projects) Working Group Committee.
 - Infection Prevention and Control (IPAC) Canada.
 - IPAC Canada Interest Groups:
 - Healthcare Facility Design and Construction.
 - Environmental Hygiene.
 - Canadian Healthcare Engineering Society (CHES).
 - Indoor Air Quality Association (IAQA).
 - Restoration Industry Association (RIA).
 - Institute of Inspection, Cleaning, and Restoration Certification (IICRC)
